## VOLUNTARY WITNESS STATEMENT

Case # 14-16166

On 10-23-14 - Thursday around 11:30 am - Kevin picked Maddy up at my house for his court appointed visitation. I live at 2830 4th St. TRLR#13 Peru IL, 61354 I usually want to supervise his visitation + he has agreed sometimes to allow that. I do that to know + protect Maddy + make sure she is safe + being taken care of well. Today, I did not supervise though. But almost every time I try to trust him to take her alone, she comes back w/ some kind of redness traumatization or rash. I have tried to communicate + constructive problem solving + agreements w/ him written + signed by him on paper to ensure Madelines safety. Again today, severely concerning + disturbing redness + swelling of Madelines vagina was present after her visitation alone w/ Kevin. Not sure if he took her anywhere else. Like sometimes he will lie + take her to his mom's - who is technically abusive to Madeline + has caused her harm many times in past. I picked up Maddy at 5:30pm at Sunset Park from Kevin. She didn't have an overful diaper at the time, But I changed her diaper right after I left the park + went straight to my house. I noticed her vaginal opening was larger + opened more than ever. also swelling + redness of entire inside + outside genital area - which was visible. I was immediately concerned + took her to the Doctors (ER - IVCH) for a doctor opinion - The only way I can get help for Maddy. I won't ignore this

## VOLUNTARY WITNESS STATEMENT

Case # 14-1C0166

My friend Adrian Perez ~~was~~ met me at my house after I got Maddy from Kevin- right when I got home he witnessed me change her + me become concerned w/ Madelines privat part appearence, I expressed him - I quickly went to hospital + Adrian followed me there + he also talked to police w/ me + he has witnessed Madeline many nes being traumatized + showing concerning behavior indicative of possibe abuse after being w/ Kevin Cramer + his parents. Madeline never shows any signs of concern or redness directly on vaginal area any time she is w/ me or after been babysat by any one I've had watch her. The only time is when she's been alone w/ her dad, unsupervised that she shows redness, unlike a usual diaper rash - she, after being alone w/ her dad had what looks like opened hole + redness directly on the skin immediately outside vagina, all the area around at multiple different occasions, also visible insides + redness + swelling of insides + on one occassion reddened + swollen sliton's as well after being alone w/ her dad which also I took her to the hospital after that occassion (There have been many) but that report was at Perry Memorial Hospital. This has been an ongoing concern. ~~I super~~

DCFS doesn't do anything to solve. They basically don't seem to care or get adequately ...

Case # 14-16166

But when I supervise his visitation, She never has these signs, But I have also witnessed concerning + endangering behavior of Kevin + his mom on his visitations. Which is also a concern of what I see when I supervise a visit, especially I cant imagine whats going on behind closed doors when Im not supervising. + Madeline is left alone in Kevins care one time she fell down a window well outside of Kevins moms house. They were not watching her - Kevin was supposed to. (Alot of times I see him check out + ignore Maddy when he's should be watching her) Also there is a very dangerous hill Madeline could fall down + die outside at Kevins Moms. I've witnessed Kevin let Maddy go toward that hill + him not pay attention - also since she fell down the window well, if could have been that hill when I was not there + they were not watching her like they should have. They also dont block basement stairs with a gate - all these dangers they dont (Kevin + his mom) dont take precaution to protect Maddy. Kevin likes to push his duty as a dad off on his mom alot - even though she is abusive in my eyes to Maddy, I'm aware of his moms aggressiveness + Maddy reacts very negatively from his mom. But Kevin still wanted to visit [illegible] 08/2007
